EDUCATION

RAND School of Public Policy

June 2026

Master of National Security Policy — GPA 3.72

Capstone Project: *The Threat Next Door: Countering Chinese Urban Gray-Zone Intelligence Operations Adjacent to Philippine Enhanced Defense Cooperation Agreement (EDCA) Sites*

Recommendation: Collaborate with the Philippines to enact a modern Philippine espionage statute and designate protected zones around EDCA sites.

- * **Engineered a comparative two-base intelligence assessment** of Basa and Antonio Bautista Air Bases, triangulating across 4 open-source families (legal instruments, geospatial imagery, investigative reporting, and think-tank analysis) to expose Chinese gray-zone penetration of EDCA perimeters.
- * **Geolocated and verified adversary surveillance sites** using a structured OSINT protocol (EXIF analysis, satellite imagery, two-stream corroboration), pinpointing commercial-cover and HUMINT vectors adjacent to U.S. rotational forces.
- * **Delivered 9 actionable bilateral policy recommendations** across legal, military-to-military, and U.S.-specific lines of effort, each paired with implementation-risk and mitigation analysis.

Coursework: Space Policy, Cost Benefit Analysis, Intelligence Analysis, Nuclear Wargaming, Advanced Military Operations, U.S. Homeland Security, Congress and National Security, Strategic Environment, National Security Research Methods, Emerging Technology and National Security

University of California, Berkeley

May 2022

Bachelor of Arts in Political Science (International Relations Emphasis), Minor in Public Policy

RESEARCH & PUBLICATIONS (HYPERLINKED)

Military Ouster and Replacement Tracker , American Enterprise Institute	2026
Purge at the Pentagon: Politicization or Business as Usual? , American Enterprise Institute	2026
Finding a Successful Strategy for Managing the UK-US Relationship , Britain's World	2025

EXPERIENCE

Research Associate, Foreign and Defense Policy Studies

April 2023 – Present

American Enterprise Institute

Washington, DC

- Built AEI's Military Ouster and Replacement Tracker with OSINT and custom tooling, generating thousands of views and driving civil-military policy engagement on recent ousters of U.S. flag and general officers.
- Produced an open-source assessment of critical NATO infrastructure in the Arctic, briefed to USSTRATCOM Commander Gen. Anthony J. Cotton and his Strategic Advisory Group. (CLASSIFIED)
- Directed 50+ confidential Track 1.5 and Track 2 engagements with U.S. and allied military and intelligence officials across 30+ countries, shaping national security policy and deepening senior-level relationships.
- Conducted national security research on NATO force posture, transatlantic alliances, and U.S. civil-military relations, and contributed to two annual updates on Russia-China-Iran-North Korea military and dual-use cooperation.
- Authored an analysis of 30 years of NATO spending and troop trends to support internal strategy.
- Produced a weekly defense policy newsletter reaching 12,000+ readers and organized 20+ public foreign policy events, expanding institutional visibility and audience engagement.
- Led media relations and daily operations, including travel logistics and monthly expense reporting up to \$30,000.

Campaign Finance Assistant

August 2022 – December 2022

Andrea Salinas for Oregon

Tigard, OR

- Supported fundraising operations that helped raise more than \$3 million in a competitive congressional campaign and contributed to a 2.4-point general election victory.
- Managed stakeholder communications with voters, constituents, and PAC officials to support outreach, fundraising initiatives, and campaign operations.

Cyberterrorism Research Intern

August 2021 – August 2022

International Center for Terrorism Studies

Arlington, VA

- Corresponding author for three published conference reports: COVID-19 and the Role of Technology, Post 9/11: Twenty Years of Multilateral Counter-Terrorism Cooperation, and War or Peace in the Middle East: Quo Vadis?
- Created internal reports using open-source intelligence collection methods to track and analyze the activities of known cyber terrorist groups, ransomware gangs, and cyber mercenaries.

SKILLS

Research: OSINT, EXIF/Metadata Analysis, Cost-Benefit Analysis, National Security Analysis, Quantitative and Qualitative Research Methods

Tools: Excel, LaTeX, R, ArcGIS Living Atlas (World Imagery Wayback), Defense Futures Simulator 2.0

CRM/Ops: Salesforce, Concur, HubSpot, Marketo, WordPress

Public Affairs: Government Affairs, Strategic Communications & Engagement, Media Relations, Project Management, Legislative Analysis, Stakeholder Engagement & Outreach, Crisis Management, Policy Writing
